

# RESEARCH SCIENTISTS (M/F) VIROLOGY / IMMUNOLOGY AND ONCOLOGY / IMMUNOLOGY

CureVac is pioneering the therapeutic application of messenger RNA (mRNA), opening up an entirely novel class of drugs. The Company develops therapeutic and prophylactic vaccines as well as adjuvants. Two tumor immuno-

therapeutics are currently in Phase IIa clinical development. Building on a unique body of knowledge in RNA research, design and cGMP production, the Company has established a range of proprietary technologies.

Our facility is located in the traditional university town of Tübingen in close proximity to a rich research environment harboring a Max-Planck campus, university hospitals, and a federal research institute. The South-West of Germany is a high-tech region at the geographic heart of Europe and known for its excellent quality of life.

#### Your responsibilities:

- Direct research projects to develop and assess novel vaccines against viral diseases or against tumor
- Devise and evaluate research strategies with a strong focus on intellectual property protection
- Written and oral presentation of research results at scientific meetings
- Coordinate collaborations with academic partners

#### Your qualifications:

- PhD or equivalent degree in the life sciences
- Strong research background in virology / immunology or oncology / immunology
- Independent research experience in the pharmaceutical or biotech industry or as an academic postdoctoral fellow
- Excellent team spirit, communication and presentation skills
- Fluency in English

The vision of having a positive impact on people's lives and well-being drives us. Our highly motivated employees and their quest for excellence are key to us achieving that goal.

If you are a team-player with an independent mind, drive, and focus who wants to push the boundaries of an exciting new field of pharmaceutical development, please send us your CV with a detailed description of your scientific experience and relevant references via e-mail to: [careers@curevac.com](mailto:careers@curevac.com)

We look forward to hearing from you.
